

**Extended possibilities**  
1st february - 15th march 2027

RAMDAM, UN CENTRE D'ART is a multidisciplinary platform for artists' practice. Hosting artists in residence – regardless of their field of research – lies at the heart of its work. The aim is to provide time and space for research and/or the development of projects rooted in contemporary artistic practices.

• In addition to the application form and any supporting document, we ask that you send us a one- to two-page text addressing the following points:

- A presentation of the artist and/or artistic team behind the research and/or creative project.
- A presentation of your artistic practice as a whole, the origins of your approach, its key issues and perspectives, and its political and social context.
- A description of the residency project for which you are applying : this should outline the specific work you wish to undertake at RAMDAM, and which justifies your application for the residency.
- Finally, please specify how you intend to use your 45-day residency and the technical requirements at each step. It is possible to request different spaces. For example, you may request a two-week writing residency on the mezzanine then a two weeks in the "petit studio and the finals weeks in the "grand studio"

The residency council will take all these factors into account when deciding whether or not to approve your application for the residency project "extended possibilities".
